Note 1 In process to obtain RETRAY Product Certificate

Note 2 In process to obtain RETRAY Approval

^[1] Products other than rigid sheet, thermoformed base and complete packaging (such as flexible lids, adhesives or labels, among others), which have been subjected to evaluation by the Ecosense Foundation to verify their compliance with recyclability guidelines. These types of products do not have a procedure for their “certification” and therefore can be subjected to an evaluation process that allows their “approval” to be used in thermoformed PET containers that can be certified with RETRAY.
